

Press Release

OlgunCelik that is one of the leading corporations of automotive sub-industry with its experience of 67 years became the supplier of Volkswagen for Amarok that is the new pick-up model of VW.

OlgunCelik established in 1945 manufactures leaf springs, which are used in all kind of light, medium and heavy commercial vehicles as safety parts, for automotive OEMs in its two factories at the Manisa Organized Industrial Zone. Our corporation that has been the design partner and supplier of customers like Daimler, Ford, Volvo, Isuzu, BMC, Mitsubishi and Iveco also puts too much emphasis on R&D studies. Our corporation, which proved this emphasis by taking the title of "Certified R&D Center" from the Turkish Ministry of Science, Industry and Technology in 2010, achieved another success in the automotive sector that is the leading sector of Turkish economy becoming the supplier of Volkswagen.

Mr. Say, CEO of OlgunCelik, who spoke of that he is proud of this achievement on behalf of OlgunCelik and Turkish automotive sector, stated that this achievement of OlgunCelik is not a coincidence but a result of all OlgunCelik team members' steady works focused on R&D and Quality by underlining that OlgunCelik's objective is to grab a bigger slice in the automotive sector.
